Occupational Safety & Health Arabia

“ The safety of your facility and health of your employees is your route to success ”

Who are we ...

Coinciding with Saudi Arabia (2030) vision, OSHArabia is keen on reinforcing the companies and enabling them to provide a professional work environment by promoting occupational safety and health practices in all governmental and private sectors.

OSHarabia brings in vast experience in the field of occupational health and safety. Our main scope is focusing on providing consultation (design review, construction, facilities) and educational awareness to all specialists in different sectors in the marketplace, to implement the best practices to avoid risk and injuries to guarantee safe work environment. We do that by complying with national and international standards for OSH. This approach ensures high- liability, major cost reduction of material losses resulting from accidents of non-complying with the rules of OSH.

Vision ””

Contribute heavily in achieving the goals of the Saudi Vision 2030 in transforming the Kingdom into a major economic power. We strive to accomplish this by imbedding a vital philosophy to achieve this change, which is a necessity of enabling occupational safety and health systems to operate in various sectors. To be the first choice within the region and a benchmark in the field of OSH.

Mission ””

Stimulate the required demand and awareness needed to maximize the priority of OSH in all facilities and contributing to provide a safe work environment free of all potential harm.

Values ””

Responsibility

Assist projects /facilities to apply OSH standards to ensure the safety of the wellbeing of the employees in the workplace.

Professionalism

We take pride in our highly skilled expertise who are well trained and qualified by international accredited companies to ensure quality and excellence.

Commitment

Apply the latest local and international standards and laws to deliver the utmost-flawless results in occupational safety and health in the company.

Sustainability

We offer our clients a comprehensive and thoughtful approach which guarantees significant results on the short and long run by empowering green environment throughout project/facility performance and manpower efficiency.
